

# DriftWatch User Guide

## DriftWatch For Applicators

The purpose of DriftWatch is to provide accurate and reliable specialty crop and apiary location information to complement the normal stewardship activities employed prior to spraying agrochemicals to nearby fields. As an applicator, you can view different registered sites in your spray area using the DriftWatch Map. You can pinpoint your focus on the map by zooming in and out or moving the map area in view. You can also narrow the field view by selecting certain crop types and growing conditions.

If of interest, you can narrow your field search by selecting specific crop types or growing conditions, such as identifying where the organic crop fields are located in your area. Or, click on the header and the lists collapse and are hidden.

Menu bar appears on all pages with the logo linked back to this homepage.

Use the location search tool to find the general vicinity of interest using zip code, address, etc.

Click on the site balloons (or pins) to view specific information about the site and the producer.

Use the button at the top of the slide bar to move the map to different points of focus. Use the slide bar to zoom in and out to view specific areas of interest.

Zoom in to see the field outlines and highlighted areas that have been submitted by producers and approved by data stewards. Click on the pins or the fields to see the producer field and profile information.

## Applicators: Signing up for Alerts

One of the desired features of DriftWatch, is the free email notification that is used to alert **registered applicators** when new sites have been added to their designated area of interest. To sign up for email alerts, be sure to register as an applicator in DriftWatch (See DriftWatch User's Guide: "Sign Up and Login"). After you are logged in, click the "Alerts" button in the upper right hand corner of the screen (next to your "My Profile" link). This will take you to a page where you can indicate from what geographical area do you want to receive the notifications.

After registering in DriftWatch, select "Alerts" to set up your applicator notification emails about new sites that get approved in your area.

There are four settings you can choose from when configuring your notifications: state/province, specific select counties, custom area, and to receive no alerts.

## Applicators: Signing up for Alerts

If you choose notifications based on specific counties, make sure those counties are checked.

Entire State / Province  
 Select Counties  
 Draw a custom region on the map  
 I do not wish to receive free site alerts at this time

**Finish**

We will send you new site alerts for the following counties / divisions:

<input type="checkbox"/> Adams	<input type="checkbox"/> Hendricks	<input type="checkbox"/> Pike
<input checked="" type="checkbox"/> Allen	<input type="checkbox"/> Henry	<input type="checkbox"/> Porter
<input type="checkbox"/> Bartholomew	<input type="checkbox"/> Howard	<input type="checkbox"/> Posey
<input type="checkbox"/> Benton	<input checked="" type="checkbox"/> Huntington	<input type="checkbox"/> Pulaski
<input type="checkbox"/> Blackford	<input checked="" type="checkbox"/> Jackson	<input type="checkbox"/> Putnam
<input type="checkbox"/> Boone	<input type="checkbox"/> Jasper	<input type="checkbox"/> Randolph
<input type="checkbox"/> Brown	<input type="checkbox"/> Jay	<input type="checkbox"/> Ripley
<input type="checkbox"/> Carroll	<input type="checkbox"/> Jefferson	<input type="checkbox"/> Rush
<input type="checkbox"/> Cass	<input type="checkbox"/> Jennings	<input type="checkbox"/> Scott
<input type="checkbox"/> Clark	<input type="checkbox"/> Johnson	<input type="checkbox"/> Shelby
<input type="checkbox"/> Clay	<input type="checkbox"/> Knox	<input type="checkbox"/> Spencer
<input type="checkbox"/> Clinton	<input type="checkbox"/> Kosciusko	<input type="checkbox"/> Starke
<input type="checkbox"/> Crawford	<input type="checkbox"/> LaGrange	<input type="checkbox"/> Steuben
<input type="checkbox"/> Daviess	<input type="checkbox"/> Lake	<input type="checkbox"/> St. Joseph
<input type="checkbox"/> Dearborn	<input type="checkbox"/> LaPorte	<input type="checkbox"/> Sullivan
<input type="checkbox"/> Decatur	<input type="checkbox"/> Lawrence	<input type="checkbox"/> Switzerland

If you select to designate a custom region, draw the area on the map by connecting points around the perimeter until you have the shape and coverage of the region you desire, as demonstrated below.

Select Counties  
 Draw a custom region on the map  
 I do not wish to receive free site alerts at this time

**Save Changes**

**Click 'Finish' above to save your alert area.**

you may also edit the shape below by dragging corners, or click 'Clear Drawing' to retry.

**Clear Drawing**

Be sure to click "Finish" at the bottom when you are done.

## Reporting a Problem with a Site

Because applicators are out in the field among all the specialty fields that are registered, they can also report problems regarding specific sites. If you wish to do so, locate the site on the map and click on the pin or the field so that the producer and site information appears.

The screenshot shows the 'Indiana Specialty Crop Site Registry' interface. A user profile for 'Kelsie Roberts' is visible in the top right. A central window displays details for 'Specialty Crop Area IN-2148', including 'GRAPES', 'Approximately 23.24 acres', 'Conventionally Grown', and 'Approved 03/26/2013'. Below this, there are fields for 'Producer:', 'Company:', 'Email:', 'Address:', and 'Phone: 317-248-5222'. A 'Website:' and 'Notes:' field are also present. At the bottom of the window, a button labeled 'Report a problem with this site' is circled in red. A blue callout box with an arrow pointing to this button contains the text: 'Press "Report a problem with this site"'. The background shows a map of the area with various streets and a red pin marking the site location.

A window will appear asking you to describe the issues with the site and provide your contact information. After submitting the information, your report will go to your state data steward, who will review it and correct the database if warranted.

The screenshot shows the 'Report Site Problem' form. The title is 'Report Site Problem' with a close button (X) in the top right corner. Below the title, it says 'Fill out the form below and we will submit the information to the proper state data steward.' There are two text input fields: the first is for 'Please describe any issues with this site using as much detail as you can:' and the second is for 'Your Contact Info: (email is preferred)'. At the bottom of the form, there are two buttons: 'Cancel' and 'Submit'. The 'Submit' button is circled in red. A blue callout box with an arrow pointing to the 'Submit' button contains the text: 'After you have filled out the information, click "submit."'. The background shows the same map as the previous screenshot.
