Administrative:
On July 30, 2018 post-race test results revealed that blood sample #71761 from the first race on
July 9, 2018, for the horse El Tocayo, was found to contain flunixin and phenylbutazone in
amounts below the threshold level. The presence of the medications together constitutes a
stacking violation and does not require purse redistribution. We notified Trainer Marten
Woodhouse who waived his right to a split sample. Mr. Woodhouse has waived his right to a
Stewards hearing and will be assessed a five-hundred dollar ($500.00) fine. This violation will
incur a half (1/2) point towards the ARCI multiple medication violation point system.

Approved scratches for today, reviewed and filed veterinarian daily treatment sheets, and blood
gas test results.

Dr. Richard Brown is the substitute Commission Veterinarian today.
