Narrative:

Acting on a report from Truesdail Laboratories, Inc. the official testing laboratory for the Delaware Thoroughbred Racing Commission, that blood sample 28979 had exceeded the level of detection for "Phenylbutazone" and "Flunixin", a violation of D.T.R.C. Rule 15.20 and 15.20.1 (ARCI NSAID Stacking Rule), which establishes a threshold at the level of detection in blood. The Stewards at Delaware Park determined that blood sample 28979 was obtained from "Charging Lion", Fourth (4) place finisher of the Second (2) race on October 8, 2020. The trainer of record for "Charging Lion" was Abel Castellano.

Trainer Castellano was notified of the results of the test on "Charging Lion"

Trainer Castellano then waived his right to a split sample and a hearing on 11/13/2020 in the matter and agreed to the penalty established by the Uniform Classification Guidelines for Foreign Substances and Recommended Penalties as approved by the Delaware Thoroughbred Racing Commission in D.T.R.C. Rule 15.18.

Based on the evidence available to them, the Stewards have determined the following: Abel Castellano was the trainer of record for "Charging Lion" on October 8, 2020 at the time "Phenylbutazone" and "Flunixin" was found in the blood sample provided by "Charging Lion" following the Second race.
