

Delaware Tree Friendly Community Program

Tree-Friendly is a state recognition program for communities that actively participate in the Urban and Community Forestry Program

To qualify as a Tree Friendly Community, you must have fulfilled (3) of the following:

- ❖ Performed an annual ceremony to promote your community's and our state's urban forest resources. This may be an Arbor Day, Earth Day, or another community ceremony that educates the public and promotes the importance of trees within your community.
- ❖ Conducted a tree project within your community that enhances existing urban forest resources. This can include planting trees within a community-owned open space, pruning of community-owned street trees, or a similar project that demonstrates a commitment to maintaining your community's existing urban forest resources.
- ❖ Developed a community forestry management plan in cooperation with the Delaware Forest Service U&CF Program. Management plans should guide the management of urban forestry resources for at least a five-year period.
- ❖ Developed a community tree ordinance that protects trees.
- ❖ Formulated a tree commission or tree board that serves as the guiding body for tree related decisions throughout the community.
- ❖ Had a tree budget of \$1 per household for residential communities.

To see if your community qualifies as a Delaware Tree Friendly Community, please complete the attached application. A site visit is required before applications are submitted. The final day for site visits is September 17, 2021. The final day to request a site visit is September 3, 2021. Applications are accepted between October 1, 2021 and December 1, 2021. Applications will be reviewed by the U&CF Council and DFS Staff. Communities that qualify will receive a letter of acceptance in January 2022. Accepted communities will receive a complimentary sign to display publicly that they are committed to maintaining their forest resources and our state's environment. This certification is effective for two years, after which it can be renewed. Applications submitted on odd years will be required to recertify the following year and every two years after to maintain a Tree Friendly Community Status.
