Using Delaware's Farm to School Producer and Buyer List

*This page contains information on how to use the Farm to School Producer/Buyer List.

1. We highly encourage users who print this list to check back periodically as program operations may change throughout the year and new vendors are added. The list will be updated no more than monthly, if needed, and users can refer to the date in the top lefthand corner of this sheet to ensure they have the most up to date information available.

2. Any specific information that needs to be updated or addressed can be communicated to the Farm to School Coordinator, Scott Schuster RD, LDN, SNS @ Scott.schuster44@gmail.com or 302-540-5077.

Start Here

Information for Producers and Vendors:

1. Use the producer/vendor tab to view your information and to double check that the address, phone or website/social media page are up to date. This Information will be used by the "SFAs" to connect with you regarding any food orders and questions.

2. After reviewing your information, use tab #2 to identify a buyer in your town/county. The buyers are listed in column 'A'. Another way to easily identify a buyer is to look at column 'B', here is where you will find their city/town location.

Tab #2 will help you identify who the contact is at each School Food Authority (SFA).

3. COLUMN L - This is the list of crops that you wish to sell to Delaware SFAs. A buyer maybe interested in one of the crops from this list and may only be interested in only buying products for a few school in the district, please be prepared to share what product you have available for purchase at any time during the school year.

Information for SFAs

1. Use tab #2 to view your information and to double check that all the information for your SFA is up to date. This Information will be used by the Producer/Vendors to connect with you regarding any food orders and questions.

2. After reviewing your information, use tab #1 to identify vendors and their products. The producers/vendors are listed in column 'A'. Another way to easily identify a buyer is to look at column 'B', here is where you will find their city/town location.

3. Tab #1 lists the numerous farmers/producers and their operation information. Scroll to the right to find the main point of contact, visit their social media/websites, and learn the types of products available (seasonal).

****Please note: this is a tentative product availability list that may change during the growing season depending on Producer/Vendor operations. Call or email the Producer/Vendor for product availability and options for transporation.**

Disclaimer:

(1): The Delaware Farm to School Producer/Buyer information provided in this spreadsheet is for the puposes of expanding Delaware and regional grown agricultural product sales to schools, school districts, single sites, and charter schools and should not be used for other unintended purposes.
